

## CHANNELLOCK® Makes It Easy to Find the Perfect Gift

The holiday season is here, and finding the perfect gift for everyone on your list can be hard work. Fortunately, hard work is exactly what CHANNELLOCK® tools are made for. That's why we're offering three gift sets featuring some of our most popular tools.

If you have someone in your life who is a fan of CHANNELLOCK®, give them the gift of quality pliers **Fiercely Made in Meadville, PA.**

### The GS-3

The GS-3 is the essential CHANNELLOCK® set containing three quality **tongue and groove pliers: the 420®, 426 and 440®**. Each pair of pliers is made with high-carbon, drop-forged steel. Whether you are replacing old tools or making a new tool purchase, this set will arm your plumber, mechanic or DIYer with premium-quality, signature CHANNELLOCK® pliers to tackle any job.

### GS-6

The GS-6 Set from CHANNELLOCK® is a must-have for the utility drawer in any home. With its **430® tongue and groove plier, 317 long nose plier, and 337 cutting plier**, it contains all of the essential tools that someone would need for basic maintenance around the house in one convenient package. It also makes a great gift for anyone going away to college or moving into their first apartment or home.

### Tool Roll 8

Tool Roll 8 is perfect for experienced tradesmen or handymen and contains everything from CHANNELLOCK® they will need: **420®, 426 and 440® tongue and groove pliers, 317 long nose plier, 337 cutting plier, 369 linemen's plier, 357 end cutting plier and the 8WCB WIDEAZZ® adjustable wrench.**

You can find all three sets and many other gift ideas, including screwdrivers, nutdrivers and oil filter pliers, at [www.channellock.com](http://www.channellock.com).

## What Firefighters Want for the Holidays

If there is a special firefighter, EMT or first responder in your life, we have two great gift ideas that will make their job easier.

In the heat of a rescue, firefighters can face any number of tough situations, requiring many tools to get the job done. Because of limited pocket space and the weight of carrying their gear, they face a balancing act of carrying the right equipment for the job while not being weighed down with too many tools. **The #88 and #89 Rescue Tools** each combine multiple life-saving functions into one lightweight tool, eliminating the weight and bulk of many different tools.

**Check out the Rescue Tools in action.**  
**Visit [www.theRescueTool.com](http://www.theRescueTool.com) to watch a demonstration, get complete performance details and order one today.**

### BLUE NOTES
